

# IW-SK35-07

3-in-5 SAS/SATA III Storage Kit

**Storage Kit**

## Features & Benefits

- 2.5"/3.5" Hot-Swap HDD x 5 Convert to 5.25" Drive Bay x 3
  - Hardware Monitoring
  - Support SAS / SATA III HDD
- Designed as Standard Mounting Hole for Converting 5.25" Drive Bay
  - Detachable 90mm PWM Rear Cooling Fan

### Specifications

|                                          |                                                                                                     |
|------------------------------------------|-----------------------------------------------------------------------------------------------------|
| Indicators                               | Fan Failure, Temperature Failure                                                                    |
| Front Control Panel                      | Alarm Mute                                                                                          |
| Backplane                                | Input:SATA III / SAS HDD , Output:SATA port x 5 ,SGPIO port                                         |
| Data Transfer Rate                       | 6Gb/s                                                                                               |
| Cooling Fans                             | 90mm PWM Rear Fan x 1                                                                               |
| Temperature                              | 0°C (32°F) ~ 50°C (122°F)                                                                           |
| Humidity                                 | 5% ~ 95% non-condensing                                                                             |
| Product Dimensions (DxWxH; Chassis Only) | 203 x 146 x 127.8mm<br>(8" x 5.7" x 5")                                                             |
| Package Dimensions (DxWxH)               | 226 x 316 x 201mm                                                                                   |
